Foreword

The safety of our staff is our priority. We will endeavour to undertake our work, teaching and activities with all due regard for the risk they present, and will ensure that we are committed to the highest levels of safety management. It is my expectation that all staff will read and enshrine the principals set out in this policy in their everyday life at the school.

Staff are encouraged to challenge poor safety behaviours and to make us immediately aware of any issue or deficiency that may potentially harm someone, regardless of how trivial it may seem.

Statement of Intent

This policy statement complements (and should be read in conjunction with) the REAch2 Health & Safety Policy, it records the school's local organisation and arrangements for implementing the health and safety arrangements of the academy.

The requirement to provide a safe and healthy working environment for all employees is acknowledged and the Governing Body and those in control of the school recognise and take responsibility for compliance with the statutory duties under the Health and Safety at Work etc Act 1974.

In compliance with the Health and Safety at Work etc. Act, this school's Governing Body will ensure so far as is reasonably practicable that:

- All places and premises where staff and pupils are required to work and engage in school activities are maintained in a condition which is safe and without risk to health. (This includes the health and safety of persons on school premises or taking part in school activities elsewhere.)
- All plant and equipment is safe to use and that arrangements exist for the safe use, handling and storage of articles and substances at work.
- Appropriate safe systems of work exist and are maintained.
- Sufficient information, instruction, training and supervision is available and provided to ensure that staff and pupils can avoid hazards and contribute in a positive manner towards their own health and safety and others.
- A healthy working environment is maintained including adequate welfare facilities.

In addition to the above the school will ensure so far as is reasonably practicable that the health and safety of non-employees is not adversely affected by its activities.

Employee involvement is an important part of managing safety, and consultation on health and safety with employees and employee representative's forms part of this policy.

Responsibility

Local Governing Body

The Local Governing Body (LGB) will:

- Provide critical oversight of health and safety management arrangements at the school, providing assurance at Trust level on overall school safety performance.
- Ensure that appropriate safeguarding arrangements are in place, including risk of harm to pupils. Including the naming of a dedicated safeguarding lead for the school.
- Preserve, develop, promote and maintain the school's health and safety management system, in partnership with REAch2 Head of Health, Safety & Wellbeing.
- Ensure that health and safety matters are taken into account when organisational decisions are made.
- Receive information to allow the governing body to monitor the effectiveness of this policy and management arrangements
- Ensure that Health & Safety is maintained as a standing item of all Governing Body and school senior level meetings.

Headteacher

The Headteacher is responsible for implementing this policy. They will:

- Ensure that the school has a structure in place to manage health and safety, including the delegation of key functions within this policy to suitable competent persons.
- Ensure that all safeguarding requirements are fulfilled for the school, including the delegation of a competent safeguarding lead.
- Provide feedback to the Trust on any issue, deficiency or shortcoming in local health and safety management arrangements.
- Ensure that plans for continuous improvement in health and safety management are developed and reviewed regularly.
- Ensure that all school activities are organised and have sufficient arrangements and resources.
- Provide reports to the governing body on a termly basis to allow the governing body to monitor the effectiveness of the health and safety policy and management arrangements.
- Prepare an emergency evacuation procedure and arrange for periodic practice evacuation drills (at least once a term) to take place and for the results of these to be recorded;
- Make arrangements to draw the attention of all staff employed at the school to its Health & Safety policy and procedures. This should take place during induction and upon any change of role.
- Ensure that all incidents are reported on the Trust's online incident system and that any critical or serious incident is notified immediately to the Trust.

- Ensure that regular safety inspections are undertaken, ensuring that the Trust's online risk management system is appropriately updated and monitored.
- Ensure that appropriate estates safety arrangements are in place, including the monitoring of school equipment and estate safety issues.
- Report to the governing body and REAch2 Estates Team any defect in the state of repair of the buildings or their surrounds which is identified as being unsafe and make such interim arrangements as are reasonable to limit the risk entailed.
- Ensure that suitable arrangements are in place for the monitoring of contractors on site, including arrangements for induction of contractors onto school grounds.
- Must assign responsibilities for Health and Safety within the staff team which include premises manager, health and safety coordinator, educational visits coordinator, first aiders, and site safety maintenance and where necessary appoint competent contractors to advise and ensure all key health and safety and maintenance responsibilities are met.
- Must ensure that those who have been assigned specific responsibilities in school for Health & Safety have been identified, this has been communicated, and adequate training or instruction has been given.
- Ensure that the Trust's Online Risk Assessment system is updated and that suitable and sufficient risk assessments have been conducted for relevant school activities, estates maintenance and curriculum activities.
- Consult with staff as necessary on matters of health and safety which may affect them at work and receive health and safety reports from Health and Safety Representatives, responding as necessary.

Caretaker

Their responsibilities are:

- To maintain an understanding of the Trust's health and safety policy arrangements, and an awareness of relevant premises-related health and safety legislation, issues and procedures and operating within these requirements;
- To control contractors working on the premises, and ensure that hazard information has been exchanged and suitable risk control measures implemented;
- Ensuring adequate security arrangements are maintained;
- Ensuring the general cleanliness of the premises and that adequate welfare facilities are provided;
- Arranging for regular inspection of the areas of the premises for which they are responsible to monitor that workplace health and safety standards are in effective working order and that a safe means of access and egress is maintained;
- Ensuring that adequate fire safety arrangements and emergency procedures are implemented and maintained;
- Ensuring that plant and equipment is adequately maintained;
- Arranging for the regular testing and maintenance of electrical equipment;

- Maintaining records of plant and equipment maintenance;
- Ensuring that all estate-related hazards are adequately identified, assessed and suitable and sufficient control measures implemented and monitored;
- Undertaking thorough investigation of all premises-related accidents/incidents;
- Ensuring the adequate provision of health and safety notices and warning signs are prominently displayed and comply with the Health and Safety (Safety Signs and Signals) Regulations.

All School Staff

Staff must be aware that they are obliged to take care of their own safety and health whilst at work along with that of others who may be affected by their actions. All employees, volunteers and helpers are advised to:

- Ensure that all safety guidance and training provided is followed;
- Attend and undertake necessary training provided by the Trust within the timeframe specified;
- Never act or do anything that may put yourself in danger or endanger others;
- Report immediately to any senior staff member any act, condition or process that you feel may, or has the potential to cause harm or loss;
- Never interfere with any safety provision, such as barriers, interlocks or signs;
- Report any dangerous act undertaken by a colleague, contractor or visitor immediately to a senior staff member or safety representative;
- Take responsibility for your visitors, ensuring that they are provided necessary safety information, as well as relevant safeguarding information.

Pupils & Parents

Pupils of the school are considered, under this policy and HSE guidance, as visitors. As such we will manage the school and our activities to account for their age and limited experience. However, it is our expectation that pupils and parents will:

- Observe all the safety rules of the school and in particular the instructions of the teaching staff in the event of an emergency;
- Use and not wilfully misuse, neglect or interfere with safety systems, barriers or anything provided to ensure the safety of others;
- Inform any member of staff of any situation which may affect their safety or the safety of others;
- Ensure that pupils are provided with suitable clothing for school, including provision of suitable sun (UV) protection;
- Report to the school any medical condition, injury or condition that may impact on their child's safety whilst at school, and to provide such information as is necessary for the school to assess the risk of its activities and tasks.

Visitors and Contractors

All visitors and contractors to the school are advised to:

- Observe all the safety rules of the school and in particular the instructions of the teaching staff in the event of an emergency;
- Use and not wilfully misuse, neglect or interfere with safety systems, barriers or anything provided to ensure the safety of others;
- Ensure that, where required, risk assessments and details of works are provided to the school and approved;
- Never to park in a way that may increase the risk to others, block an escape route or present a security risk;
- Observe the safeguarding rules and guidance when on site and report anything you believe to be inappropriate or in breach of the safeguarding principals to the school's dedicated safeguarding lead or reception staff;
- Always wear identify passes provided to you through the course of your visit.

Arrangements

The following procedures and arrangements have been established within the school to eliminate or reduce health and safety risks to an acceptable level and to comply with relevant legal requirements. Arrangements are categorised into People, Places and Processes.

People: Our arrangements to ensure the safety of our staff and their activities.

Places: How we will ensure the safety of our school premises.

Processes: Our procedures and policies put in place to ensure effective management of the school.

People

Accident Reporting, Recording & Investigation

If an accident occurs, it must be reported in detail to allow investigation and follow up. All incident, near miss, violence and aggression, including acts of bullying can be reported on the Trust's online risk management systems (Parago). All schools will as a minimum have one staff member trained to input data to the system. Details of who incidents can be reported to will be provided during staff induction and on display in the staff room and medical rooms.

It is the school's expectation that all incidents will be investigated, to ensure that the root causation is identified and appropriate action undertaken. For serious incidents, and for all RIDDOR reportable incidents (please see <http://www.hse.gov.uk/riddor/reportable-incidents.htm> to confirm whether incident is RIDDOR reportable) the Trust's Head of Health, Safety & Wellbeing will be notified and if required, an independent investigation undertaken. All staff are advised to provide the required support for any investigation.

The school will review all reported accidents termly to identify trends and issues, this will be supplemented by the Head of Health, Safety & Wellbeing who will undertake Trust-wide reviews, offering the school appropriate feedback on emerging trends and issues.

Staff must ensure that all accidents are reported immediately (within 4 hours) to their line manager or an appropriate member of senior management staff.

First Aid

The school has assessed its first aid needs and staff have been trained in the provision of first aid / Emergency First Aid. A copy of the first aid needs risk assessment will be available from the School Business Manager and will be reviewed annually and approved by the Governing Body.

Medical supplies are held in the medical room and there are first aid bags for use in the playground and on educational visits. The School Business Manager is responsible for checking boxes on a monthly basis and the office staff will order as required.

If the emergency services are required, the first aider will contact the Headteacher or a member of the Senior Leadership Team who will advise the office to contact the emergency services. The Headteacher or an appropriate member of the Senior Leadership Team or teaching staff would act as loco parentis and accompany the child to hospital.

First Aid training is recorded in a central record and is updated regularly and monitored to ensure that refresher training is undertaken when required. A list of First Aiders is displayed in each building and in the staff room of the school detailing the name and location of the first aiders.

Information on First Aid arrangements

Pupil accidents involving their head

The Academy recognises that accidents involving the pupil's head can be problematic because the injury may not be evident and the effects only become noticeable after a period of time. Ice packs are applied as a precaution; these are kept in the freezer in the Medical Room. A number of instant ice packs are available to take on trips. Where emergency treatment is not required, all bumps to the head will be reported to parents with a telephone call and a follow-up electronic slip recording the location of the injury and treatment provided.

Blood Injuries

All staff are aware of the necessity of wearing gloves when dealing with blood. Disposable vinyl gloves are available in the first aid room, along with first aid kits to take out on trips. Injuries which result in blood loss are always covered to avoid infection. There is a disposable yellow bin bag in the first aid room to contain items which have been contaminated by blood.

Break time, lunch time and lesson time

At break and lunch times, all support staff on duty will carry an emergency first-aid kit to deal with minor injuries. During lessons, each classroom will have a first-aid kit to access. However, where children require further treatment, children should be sent to the Medical Room with a buddy (if needed) where a member of the admin team will deal with the child and record their illness/injury.

Record Keeping and Reporting Accidents

An electronic record is kept of all children's injuries that required First Aid treatment on Evolve Medical Tracker Accident Reporting system. This system also records Staff Accidents too. Any other minor issues that do not require First Aid are recorded in a confidential folder kept in the Medical Room.

- Parents are contacted by telephone with a follow-up email if a child has received a bump to the head, a wasp or bee sting or a significant incident.
- An electronic Accident Form is completed to report every first aid treated incident, this is then automatically emailed to the parents.

- In the event of a medical emergency and the Academy is unable to contact parents/carers then the Head Teacher acts in 'Locum Parentis'.
- Parents of an ill pupil will be contacted to take the pupil home.
- At the commencement of each year, request for updated first aid information will be sent home including request for any asthma management plans, high priority medical forms, and reminders to parents of the policies and practices used by the Academy to manage first aid, illnesses and medications throughout the year.
- All medical conditions or requirements are recorded on Arbor - the Academy's Management Information System.

Transport to hospital or home

- The Head teacher or next most senior person will determine what is a reasonable and sensible action to take in each case.
- Where the injury is an emergency, an ambulance will be called following which the parent will be called.
- Where hospital treatment is required but it is not an emergency, then the Head teacher will contact the parents for them to take over responsibility for the child.
- All first aid trained staff have authority to call an ambulance immediately in an emergency. If the situation and time permit, first aiders are encouraged to confer with others before deciding on an appropriate course of action.

Children with Medical Needs

- Children with medical needs have the same rights of admission to the Academy as other children.
- Most children with medical needs can attend the Academy and take part in normal activities, sometimes with support.
- Parents/carers have the prime responsibility for their child's health and should provide Academy's with
- information about their child's medical condition.
- An Individual Health Care Plan will be put in place, if required, to help staff identify the necessary safety measures to support children with long term medical needs and ensure that they, and others, are not put at risk.
- All children with significant medical needs will have their photograph and a brief description of their needs displayed in the Medical Room, with the person who has had specific training identified. This will also be flagged up on Arbor.

Asthma Treatment and Inhalers

- Asthma sufferers are permitted to bring their own treatments (inhalers etc) to the Academy. The prescribed dosage should to be indicated by parents.
- An Asthma register recording any children with asthma is kept within the Academy Office.
- Asthma treatments for pupils (inhalers etc.) are kept in the classrooms in a labelled box with the child's name.

- Asthma treatments are to be administered by the pupil. After a treatment has been administered, the Class teacher or TA records the date and time in the Incident Book.
- Asthma treatments are taken on Educational Visits and 'off site' sporting activities.
- Parents are responsible for checking that the treatments are still within their 'Use by dates' and for replenishing them.

Epipens and Anaphylaxis Shock Training

- A list and photograph of anaphylaxis sufferers are displayed in the Academy Medical Room.
- Epipens, for anaphylaxis sufferers, are kept out of reach in the individual's classroom.
- Epipens can only be administered by members of staff who have received epipen training.
- Specific staff are trained in the use of epipens for each individual anaphylaxis sufferer annually.
- Each anaphylaxis sufferer has an individual protocol to follow when receiving the treatment. The trained staff are aware of the procedure.
- Epipens and the appropriate trained member of staff are taken on Educational Visits and off site sporting activities.
- Parents are responsible for checking that the treatments are still within their 'Use by dates' and for replenishing them.

Administering First Aid off Site

- First Aid provision must be available at all times including off site on Academy visits. The level of first aid provision for an off-site visit or activity will be based on risk assessment.
- A First Aid Kit must be taken on all off-site visits.
- All adults present on the visit should be made aware of the arrangements for First Aid.
- If any First Aid treatment is given the Group Leader will advise the Academy office, by mobile telephone if urgent, or on return so that the pupil's parents can be informed.
- If a pupil is taking a prescribed medicine the medication will be kept in the First Aid box, with a cool pack if necessary, and will be administered by the Group Leader at the necessary time.

Occupational Health Support

We use Marigold and follow staff Managing Sickness/Absence Policy.

Working at Height

- Staff are prohibited from standing on chairs, tables etc. to carry out work on displays etc. The Caretaker has steps and access equipment which are regularly inspected and can provide assistance where needed.
- Any staff member required to use access equipment must have appropriate training in the use and maintenance of this equipment by a competent provider. To support staff e-Learning in safe work at height is available and will form the basis for any new staff induction.
- Where necessary external contractors will be used for high level cleaning and maintenance requirements.

Handling & Lifting

It is probable that all staff will undertake some form of manual handling at work, to varying degrees. The school will:

- Provide Manual Handling e-Learning training to all school staff.
- Where any significant handling task is identified steps will be taken to avoid, assess and reduce the load concerned, taking into account individual capabilities and skills. The need for manual handling training of inanimate objects and for people moving will be identified and provided as it emerges.
- Ensure that risk assessments are undertaken for manual handling tasks conducted by staff.
- Require suppliers to deliver to point of use where possible.
- Provide a passenger lift and trolleys to aid the movement of equipment, stationery through the school.
- Staff are requested to notify their line manager of any injury, illness or medication that may affect their ability to perform manual handling tasks.
- All staff must use equipment provided for manual handling tasks, including trolleys and supports.
- It is the school expectation that people lifting and handling will not be expected. Any staff who is required to undertake people handling as part of any care and support work will be provided specific training and support.

Jewellery & Clothing

There is no specific legislation that governs the wearing of school uniforms and jewellery. The school will ensure it meets the guidance offered by *'School uniform guidance for governing bodies, school leaders, school staff and local authorities September 2013'*. The school will manage a dedicated policy on the management of school uniform, which will be agreed by the governing body and subject to annual review.

It is expected that where the wearing of jewellery may present a risk, such as during sports and PE activities, it will be removed.

The school cannot be liable for lost jewellery; staff and parents are reminded that they must ensure all valuable items are kept secure.

Lone Working

A lone worker is an individual who spends some or all of their working hours working alone without direct supervision. This may occur during normal working hours at an isolated location within the normal workplace or when working outside normal business hours. Staff may also be considered to be lone workers if the nature of their work places them in isolation from others, either in or outside of core hours where the nature of the work may lead to injury.

- Core school hours are considered to be 7:00am – 6:00pm
- No lone working will be permitted after 8pm.

No staff member should work alone outside of the core hours unless they have the permission of the Headteacher or a member of the SLT. Individuals must ensure that they have informed a responsible adult that they are working alone in the school and carry a mobile phone with them at all times.

All lone working activities will be risk assessed. Our risk assessments will cover all work currently undertaken alone (or proposed to be), where the risk may be increased by the work activity itself, or by the lack of on-hand support should something go wrong. Once all job roles involving lone working have been identified, the following factors will be considered:

- Risk of violence - All jobs involving an element of lone working will be assessed for any risk of verbal threats, or violence. The priority will be those involving face-to-face dealings with members of the public and/or cash handling.
- Plant and equipment - Plant and equipment used by lone workers will be assessed to ensure that it is suitable for use by one person.
- Work at height - Working at height will NOT be undertaken when working alone.
- Chemicals - Any existing, or planned use of chemicals will be considered with regards to their suitability for use by those working alone.
- Access and egress - Some lone working may require access to locations that are difficult to access or exit. Assessments will consider whether these tasks are suitable to be carried out by one person.
- Staff must not arrange meetings with parents or members of the public when lone working. All meetings must be arranged during school occupancy times or when there is more than one informed member of staff on site for the duration of the meeting.
- Staff are required not to handle cash when lone working.
- Late meetings must finish promptly and not leave one member of staff alone on site.
- Staff must not approach, or let into the buildings, unauthorised persons when lone working.

Personal Protective Equipment (PPE)

The need for personal protective equipment will be identified by risk assessment for tasks and processes. Where the need is identified, for instance, for protective clothing, this will be provided free of charge by the employer. It is the responsibility of staff and helpers to ensure they wear and use all PPE as directed. Any defect, damage or other issue that renders the PPE not effective must be reported immediately to the line manager.

Smoking

The school is a non-smoking site and will do its utmost to support staff to quit smoking. No smoking is allowed:

- On any part of the premises.
- In any school owned vehicle.
- In a personal vehicle whilst transporting any staff for students.
- In any location where it poses any nuisance to others, such as near other premises.
- All smoking debris must be safely disposed of and not left on the floor.
- All external areas utilised by the school in the event of an emergency will be deemed as a workplace, as such no smoking is permitted around any students whilst outside of the school property.
- The Headteacher, on agreement, will support staff with time for smoking cessation sessions.

Stress and staff wellbeing

- Schools are dynamic and changing environments, with fluctuating pressures. The school leadership team acknowledge that within the changing environment staff need support and will ensure that pressures are reasonably managed.
- Staff are encouraged to identify and areas of concern that are affecting their mental or physical wellbeing at an early stage to allow for appropriate support to be planned.
- Individual risk assessments will be developed by line managers with staff who may become more vulnerable through pregnancy, disability or ill health including mental ill health. Where necessary, staff will be referred for Occupational Health support.
- Staff may self-refer to the school's Education Support Partnership helpline. These self-referrals are strictly confidential and managers will not be notified or receive reports.
- The school will undertake a risk assessment in line with the HSE's Stress Management Standards, and will ensure that it has in place procedures for managing work load and competence.

Training and Development

- New staff will receive a health and safety induction which will be recorded. The training will cover all critical aspects of safety on site, including;
 - Responsibilities for safety
 - Fire safety arrangements
 - Reporting incidents
 - Safety handling and lifting
 - Working at height
 - Reporting safety concerns
 - Policy induction
 - Asbestos management
 - Safeguarding
 - Security and lockdown

- The school has access to a range of e-Learning courses to fulfil part of the induction requirement. New starters will be provided with log in details to enable them to complete their assigned e-learning courses.
- The school will maintain a training matrix, establishing minimum levels of training based on job role type. All staff at induction and through their appraisal will be expected to provide evidence that all necessary training has been undertaken.
- The Headteacher is responsible for ensuring that all staff have undertaken mandatory training identified in the training matrix and by the Trust.
- All staff are responsible for ensuring that where training is provided, that it is undertaken and the principles adhered to.

Display Screen Equipment and Home Working

Staff who are regular users of computers, tablets, laptops etc (continuous use for more than an hour a day or as a habitual part of their job) are required to undertake an online e-Learning training course and self-assessment. Where staff are required to undertake work from home, on a regular or semi-regular basis, a Home Worker Self-Assessment will be required.

The school will have a nominated DSE lead, who will review all completed assessments and follow up on any defect, issue or support request arising from the self-evaluation. All staff must inform their line manager should the assessment no longer be valid, and as a minimum reviewed on a two-year rolling basis.

Guidance on good ergonomic posture is available to staff and eye tests will be paid for by the school every two years. Where the test results in the need for corrective appliances solely for VDU use the school will contribute to the cost of basic corrective appliances.

Where equipment is identified for the purpose of home working, the school will agree funding on a case by case basis.

Staff who are classified as Home Workers, either on an ad hoc or contracted basis, will be required to complete a Home Workers safety assessment. The DSE Lead or designated line manager will be responsible for reviewing and approving the home worker assessment and will, where identified, rectify any identified issues.

Sun Safety & Hydration

Too much exposure to ultraviolet light (UV) radiation from the sun causes sunburn, skin damage and increases the risk of skin cancer. Sun exposure in the first 15 years of life contributes significantly to the lifetime risk of skin cancer.

There is potential for Nurseries and Schools to help prevent skin cancer in future generations because:

Nurseries/ Schools can play a significant role in changing behaviours through role modelling and education from an early age.

Children and staff are at risk of sunburn within 10-15 minutes of being exposed to strong sunlight. Skin cancer is largely preventable through behaviour modification and sun protection during early years.

The main elements of this policy are:

Partnership: working with parents/ guardians, staff and the wider community to reinforce awareness about sun safety and promote a healthy school.

Education: learning about sun safety to increase knowledge and influence behaviour.

Protection: providing an environment that enables children and staff to stay safe in the sun.

PARTNERSHIP

Sun safety will be promoted through working with parents, staff and the wider community to improve our understanding and provision to avoid harmful effects of too much exposure to ultraviolet light (UV). Staff should act as positive role models and set a good example by seeking out the shade whenever possible and wearing suitable clothing and sunscreen.

EDUCATION

Parents and guardians will be asked through letters/ newsletters to support this policy by encouraging their children to adopt the Slip, Slop, Slap message and act as role models.

Children will be taught the 'Slip, Slop, Slap' song which will help them to remember the Safe Sun message.

Children will be read the 'George The Sun Safe Superstar', an illustrated, rhyming story that educates children on the importance of Sun Safety and staff will regularly reinforce the sun safe message through discussion.

PROTECTION

A link is placed on the school website to <https://www.sunsafeschools.co.uk/uvForecast/> . We strongly encourage parents to check this daily and when UV rating is 3 or above, parents should apply sun screen before school and supply children with a sun hat and appropriate sun screen for use in school.

Shade:

The playground has shade provided by the school buildings, outdoor shelters and we have temporary structures for use during outdoor play.

Children will be encouraged to use the shaded areas during playtimes when appropriate.

Clothing:

The children will be encouraged to wear clothes that provide good sun protection.

Lower Farm Academy will provide spare appropriate sun hats.

Drinking Water:

Children are encouraged to increase their water intake in hot weather and are encouraged to drink water during outdoor play times.

Ensure that suitable potable water supply is available to all children and staff;

Encourage hydration breaks during sport and PE activities.

Applying sun screen in school:

Staff to encourage as much independence as possible for children to apply their own sun screen. Where children require assistance, staff will apply intimate care procedures to support.

Sun screen will only be applied to areas of the body not covered by clothing.

Where outdoor activities are planned, such as sports events, a dynamic assessment will be taken to ensure that children are not exposed to unreasonable sun exposure;

Violence & Aggression

- The school operates a zero tolerance policy to acts of aggression and violence to our staff and pupils. Our staff must feel confident to speak out in the event that they feel they have been treated with disrespect, aggression or have been the subject of a physical assault. It will be the policy of the school to remove any person from site who acts in a way that intimidates others and will work closely with our Police Community Support Officer (PSO) to review arrangements for managing violence and aggression to staff.
- In the first instance staff must report any violence / aggression immediate to their line manager or any member of the SLT Group. Once reported, it is the duty of the SLT member to ensure that immediate action is taken to address the nature of the disclosure and, if necessary report to the Headteacher and Deputy Director of Education. The school will ensure that all reports are fully investigated and all staff fully consulted on the progress of any investigation.
- The school will undertake regular risk assessments of the risk of violence and aggression to staff.
- The school reserves the right to refuse entry to its grounds, any person known to engage in acts of aggressive behaviour or having history of violence towards staff members.
- The school, where required, may take a court order to prevent the entry of any person where the court and Headteacher believe there are grounds to do so.
- The school will have in place robust procedures to address internal acts of bullying and harassment and will take action against those are believed to participate in any act that victimises any staff, parents or students.
- To minimise the risk of violence, no staff may be permitted to lone work without prior agreement (see lone working section).
- No cash handling will be undertaken by staff without a risk assessment having been undertaken.
- All visitors, including parents, must report to reception on their arrival and must not be permitted entry until a staff representative has confirmed their visit.
- All acts of violence and aggression must be reported on the Trust's online risk management system.

Premises

Asbestos

The school is of post year 2000 construction, and there are no known asbestos items contained within the school grounds. However, all works likely to disturb the building fabric must be suitably managed and risk assessments undertaken.

All asbestos incidents will be reported immediately to the Trust's Estates Team and full investigation undertaken.

The school will maintain on site copies of the:

- School asbestos management survey
- Asbestos register
- Asbestos log book
- Asbestos Management Plan

Contractor Management

Any contractor coming to work on the school site must make arrangements in advance and have a meeting with the Premises Manager or member of the SLT to agree their work arrangements to cause minimum disruption to the school and prompt communication about hazards and risks and how these will be managed.

Contractor activity will be monitored by the Premises Manager to ensure agreed rules are followed and contractors will be required to sign in and out of site as per the school agreed procedure, including the Asbestos Log Book.

Contractors will take all reasonable steps, including background and criminal record checks, to ensure that their employees and those of Subcontractors are suitable for working within an educational environment. Supervisory measures must be in place to ensure no contact with pupils except where urgent matters prevail of a Health & Safety nature.

REAch2 has set a minimum safeguarding requirement that at least one person who has a current (i.e. no more than 3 years old) Enhanced DBS Check will supervise all individual employees, operatives and Subcontractors during the course of every project. Specifically, these requirements are:

- Wherever possible, Contractors will be restricted to an exclusively "contractor-occupied site" during term-time where their activities are segregated from the remainder of the school population as much as possible **and** they are always to be under the direct, continuous and uninterrupted control of at least one Site Supervisor (who has a current Enhanced DBS check) for the full duration of the works on site.

- A copy of the DBS certificate/s and Site Supervisor's photo ID must be provided to the Client, the School Business Manager and retained within the Construction Phase Plan prior to commencement of work on site.
- The Client reserves the right to question the content of the DBS certificate/s (in particular, aspects relating to positive disclosure) with the Site Supervisor's employer and, furthermore, reserves the right to reject supervisory staff based on the contents of the DBS certificate and / or the outcome of discussions with employers.
- All site operatives must be in possession of and wear their company photo ID at all times when on site.
- Operatives must always "sign in" at Reception first, wear their visitors badge at all times while on the premises and sign out at the end of their shift. Operatives may also be required to sign in / out elsewhere on the premises but Contractors will be advised of this at the time.
- Where necessary, all operatives will be escorted to and from the "contractor-occupied site" by a member of school staff such as the Site Manager / Caretaker.
- Where site segregation is not possible (e.g. for short-term, localised or remote aspects of a project and / or emergency maintenance carried out by one (or a small number of) operatives then they will be supervised by a member of school staff such as the Site Manager / Caretaker / School Business Manager - where necessary, Academy Trust Regional Maintenance Surveyors will practically support this supervisory function.
- The Site Supervisor/s, in possession of a current Enhanced DBS check, will ensure that they are familiar with the Safeguarding Policy & Procedure for the school at which the work is being undertaken - a copy of the Safeguarding Policy & Procedure will be provided at the Project Pre-Start Meeting, acknowledgment of receipt will be recorded in the minutes of that meeting and a copy of the Safeguarding Policy & Procedure will be retained within the Construction Phase Plan.
- The Site Supervisor/s, in possession of a current Enhanced DBS check, will arrange to meet regularly (at least weekly) with the School's Head Teacher in order to review the effectiveness of safeguarding arrangements.
- Particular protocols, as agreed with the Head Teacher, will be recorded within the Construction Phase Plan and will include provision to allow the Head Teacher to raise safeguarding concerns directly and immediately with the Contractor.
- Any identified shortcomings in terms of safeguarding must be immediately and fully addressed to the satisfaction of the Head Teacher and Client - note that this can include the removal of site operatives from the project in the event of shortcomings in safeguarding provision and / or failure to adhere to either agreed protocols and / or the provisions herein.

Contractors will be inducted onto the school site by the Premises Manager. Site inductions will vary depending on the nature of the works, but will as a minimum cover the following aspects:

- Access and egress from the site
- Reporting incidents and near misses
- Asbestos (log book and confirmation of locations)
- Fire safety arrangements

- Site conduct
- Management of waste and chemicals
- Site segregation

All incidents that occur on site must be notified to the school, regardless of who the employer is. The school may request details from the contractor on follow up action to rectify an incident, near miss or failing by the contractor to manage their site risks. Where the REAch2 Estates Team are the contract managers, the school will ensure the Regional Maintenance Surveyor is notified of any incident and corrective action taken.

Electrical Equipment

- All staff should undertake a visual check of electrical equipment prior to using it to ensure it is safe. Guidance can be provided by the Premises Manager.
- Staff are prohibited from bringing in electrical appliances into school unless they have permission from the Premises Manager.
- It is the school policy to follow HSE guide INDG236 to set out PAT test frequencies. The school will observe the below for a typical low risk school environment:

Table 1 Suggested initial intervals for checking portable electrical equipment

Equipment/environment	User checks	Formal visual inspection	Combined inspection and testing
Battery-operated: (less than 40 volts)	No	No	No
Extra low voltage: (less than 50 volts AC): Telephone equipment, low-voltage desk-lights	No	No	No
Desktop computers, VDU screens	No	Yes, 2–4 years	No if double insulated, otherwise up to 5 years
Photocopiers, fax machines: Not hand-held. Rarely moved	No	Yes, 2–4 years	No if double insulated, otherwise up to 5 years
Double insulated <input type="checkbox"/> (Class II) equipment: Not hand-held. Moved occasionally, eg fans, table lamps	No	Yes, 2–4 years	No
Double insulated <input type="checkbox"/> (Class II) equipment: Hand-held, eg some floor cleaners, some kitchen equipment	Yes	Yes, 6 months – 1 year	No
Earthed equipment (Class I): Electric kettles, some floor cleaners, some kitchen equipment and irons	Yes	Yes, 6 months – 1 year	Yes, 1–2 years
Cables (leads and plugs connected to the above) and mains voltage extension leads and battery-charging equipment	Yes	Yes, 6 months – 4 years depending on the type of equipment it is connected to	Yes, 1–5 years depending on the type of equipment it is connected to

- The hard wiring of the building will be inspected and tested every five years.
- Any unsafe equipment must be taken out of use and repaired or disposed of.
- Pupils using electrical equipment should be supervised.
- Only qualified and competent persons may be permitted to work on any electrical equipment of supply i.e. NICEIC.

Fire Precautions

The school will ensure it fully meets the requirements of the Regulatory Reform (Fire Safety) Order 2005, and will ensure that:

- A full and comprehensive fire risk assessment is conducted for the school by a competent person.
- The Headteacher will ensure that all actions arising from the FRA are reviewed and undertaken within the specified time.
- Where actions require funding or specific expertise, full consultation will be given to REAch2 Estates team and the lead Regional Maintenance Surveyor.
- The Fire Risk Assessment will be reviewed at least annually or following any fire incident.
- All staff regardless of their role will be provided a fire safety induction, including the location of exits, actions to be taken the event of discovering a fire and where necessary firefighting.
- Life safety comes first; staff must never endanger themselves and must ensure as a priority the safety of students.
- The Caretaker is responsible for weekly and monthly tests of emergency lighting and the fire alarm system.
- The SLT to organise termly fire drills and provide feedback from these drills.
- Fire action notices are posted in each room identifying the fire evacuation procedure.
- The school will ensure that a suitable number of fire marshals are appointed, details of which will be posted to the rear of class doors and within the staff room.

Outdoor Play Equipment

- The school has a number of external play apparatus. To ensure their safety, it is our policy that all external equipment is provided a full RPII accredited annual inspection. The Premises Manager will have the responsibility for overseeing that all checks are completed and for the undertaking of weekly visual inspections on all play equipment.
- All staff are to report damage and defects immediately and to take all reasonable steps to prevent dangerous equipment from being used.
- The school will ensure that playground and supervision risk assessments are completed and communicated to relevant staff.

Hazardous Substances (COSHH)

- The school will procure where possible non-hazardous cleaning substances and other chemicals, e.g. paints. Safety data sheets will be obtained for product and an assessment made to ensure that substances are stored, used and disposed of safely.
- Substances MUST not be decanted into other containers.
- All cleaning and other hazardous products must be stored in locked areas, with any flammable substances in flammable containers.
- The Premises Manager is responsible for carrying out COSHH assessments and training will be provided to them.
- Protective clothing is provided where required by assessments or in accordance with Safety Data sheet information.
- Staff are reminded not to bring any substances or preparation into the school without prior consent.

Housekeeping, Cleaning & Waste Disposal

- The school employs cleaning staff in the evening who may respond to spillages etc.
- In the event that no support staff are available staff are responsible for making safe any spillage. Cleaning supplies are kept in cleaning cupboards and warning signs must be placed to identify slippery floors.
- Rubbish is cleared on a daily basis and stored securely in a compound until it is collected.
- Arrangements are in place for the disposal of clinical and other hazardous waste.
- The school will provide facilities to recycle waste.
- All staff are reminded to clean away food stuff after all meals and not to leave food waste where it may attract vermin.

Lettings/shared use of premises

- The school has agreement to hire the below areas to external hirers only:
 1. Main Hall
 2. Field/Sports Pitch
- The school will only let the named areas for commercial and community purposes so long as hirers submit a copy of any risk assessments for activities to be carried out in the school building and the school is confident that these pose no risk to the building.
- Hirers will be notified of their health and safety responsibilities including responsibility for raising the alarm, school security, public entertainment licenses etc.
- All hirers are responsible for ensuring their own insurance is in place for their activities; a copy of the indemnity cover must be provided as part of any hire.
- The school reserves the right to cancel any event in line with the booking terms.
- Hirers will be liable for all damages and costs associated with their hire.

Property Defect Reporting

Any minor defects or building concerns should be reported to the Premises Manager and recorded in defects book for remedial action. This is found in the Main Office. Otherwise, staff who are set up to use the online reporting system can raise a helpdesk ticket.

Where a major issue is identified, or the defect presents an imminent risk to the safety of building occupants, the school will take all necessary measures to cordon and make the area safe. The school will notify the Estates Team and Regional Maintenance Surveyor.

Staff must take steps to warn others of any immediate hazards, for example by placing warning signs which can be found in the cleaners' store.

Snow and Ice

The school will prepare a gritting plan, identifying all key priority access and egress routes. All staff are advised to familiarise themselves with safe access routes. Where severe weather warnings are issued, the school leadership team, on approval of the Headteacher will close the school. External activities, such as play and PE will be dynamically assessed; if severe weather presents a risk the school will opt to run indoor play to reduce the risk to staff and pupils.

Vehicles on Site

- Staff must park their vehicles in the designated car park.
- Access to the site is controlled by manual gate. Under no circumstances should staff attempt to repair or tamper with the gate. All defects must be reported to the site Premises Manager.
- Vehicle speeds are limited to 5 miles an hour and notices are displayed in the car park.
- All delivery drivers and contractors have to report to Reception.
- The school will ensure that large vehicles to site, such as for larger deliveries and construction works, are planned to transit to a safe area and where possible out of hours.
- Children awaiting transport for visits will be accompanied by teachers and escorted onto vehicles.
- Road awareness safety training takes place for pupils.
- All staff wishing to park on the school premises must register their car with the school, so that ownership can be identified.
- Any suspicious vehicle must be reported immediately to the school reception staff, who will clarify ownership or seek further assistance.

Water Hygiene

- To ensure the safety of the water supply, the school will ensure that a Legionella risk assessment is undertaken, in alignment to HSE Guide L8. All assessment and corrective works to the water system will be undertaken by a competent person.

- The Premises Manager will be responsible for the day to day management of the water system, and will work with any external appointed contractor to ensure that the necessary checks, cleaning and dosing activities are undertaken, as identified in the Legionella control plan.
- The water system should be regularly tested by an external contractor, and the risk assessment updated regularly by a competent external company.
- Any external contractor working on the water system must record their activities in the water system log book and refer to it before commencing work.

Preventing Slips & Trips

Slips and trips are amongst the highest reported incident type. The school will ensure that:

- The Premises Manager is undertaking daily site tours and conducts formal monthly / termly property inspections.
- All floor damage will be ideally made safe immediately; however, if not, the Premises Manager will ensure that suitable steps are taken to cordon off or secure areas where trip hazards are identified.
- Areas of changes in level will be suitably lit and marked.
- All staff are reminded to deal with small spillages when they happen and to take action where they see spillages.
- The Premises Manager will support staff with managing larger spillages or ground contamination.
- The school will ensure that wet play activities or those involving potential floor contaminants are planned and risk assessed to prevent or minimise any slip / trip risk.
- Annual building condition surveys will be undertaken by REAch2, and will include floor condition and life span.
- The Regional Maintenance Surveyor working with the school Business Manager will identify a plan of work to address defect as well as advise on potential budgets i.e. SCA / Capital.

Processes

Staff Consultation and Communication

Health and safety will be included on the agenda for all staff (teaching and non-teaching) meetings to allow staff to raise any concerns and make suggestions for improvements.

All staff will have access to the REAchIn intranet pages, where they will have access to a range of supportive material and consultation documents, including information on safety initiatives and news bulletins.

The school will post relevant safety information within the staff room on the noticeboard. Where a change to work practice is identified, staff and union representatives will be consulted.

Headteachers will have access to a regular Heads Forum, facilitated by REAch2. The forum will provide update information on safety management including trends and actions required from schools.

The Deputy Director of Education will work with schools to discuss and consult on new safety developments, including issues related to new policy and work practice.

Health & Safety Committee

To supplement the ongoing staff meetings, the academy will hold a termly Health & Safety Committee meet. This meeting will be hosted by the lead Health & Safety governor representative and will comprise of, as a minimum:

- Headteacher
- Health & Safety Union representative
- Staff representative
- Premises Manager / Premises Representative
- Teacher Representative

All meeting will be minute and the Business Manager will be responsible for ensuring that all actions are appropriately assigned and actioned. Terms of reference will be provided and reviewed annually by the Local Governing Body.

The Committee will provide oversight of the academy health and safety performance, providing support and guidance to the school to improve safety performance and understanding. The committee will, as part of its operation review:

- Incident reports and trends
- Audit actions
- Inspection logs and defects reports
- Training and staff competency
- School condition reports and estates related actions
- Policy review
- Health & Safety policy review
- Risk assessment matrix review and outstanding actions
- REAch2 Initiatives and reports

Supervision & DBS Arrangements

- The DfE requires that recruitment practices in schools and nurseries meet a certain standard of safety. Their recruitment procedures should help deter, identify or reject people who might pose a risk to children. DBS checks are a key part of determining a prospective employee's suitability to work in a school, college or nursery.
- It is the school policy to adhere to all DfE requirements related to DBS checks, and as such will ensure that all staff, governors and those likely to interact with children or work within any

school-related activity, will have all necessary enhanced DBS checks. The DBS check will include a check of the children's barred list if the person has been assessed to be working in regulated activity.

- No staff may be permitted to undertake activities within the school until the DBS check has been returned and agreed by a member of the SLT group.
- All staff members will have their DBS check reviewed at three year intervals, or sooner if identified by the LGB or a SLT staff member or where directed by the Deputy Director of Education.
- Those visiting the site who have not been appropriately DBS checks **MUST** be accompanied on site at all times by a school staff member and at no time left unsupervised whilst in the school grounds.
- Pupils will be supervised at all times during the school day in the classroom, at playtime, at lunchtime and during any afterschool activities.
- During out of school activities pupils will be supervised at all times and a risk assessment will be undertaken for all out of school activities to ensure that the appropriate levels of supervision and DBS checks are in place.

Swimming and Pool Management

- If teachers accompany children to swimming lessons off-site they must make themselves aware of the normal and emergency operating procedures for the pool being attended.
- The school will risk assess and provide suitable supervision arrangements based on the age, skill and support requirements of the pupils.
- The school, where using an external pool provider, will ensure that on an annual basis relevant copies of public liability cover is provided and stored. In addition, the school will ensure that the provider has at all times competent and qualified lifeguard cover.

Work Experience and Young Workers

Where work experience placements are offered to external students, it is the policy of the school that:

- All work experience students will receive a full Health & Safety induction to the school.
- Work will be planned to take into account their limited work experience and knowledge of risks.
- A risk assessment for Young Workers will be undertaken and communicated to relevant staff.
- A DBS will be undertaken for all staff.
- Suitable supervision will be provided at all times.
- Weekly catch up sessions will be held by their line manager.

Drugs & Medications

The school will administer medications only after receipt of a written request from the child's parents / legal guardian and accompanied by the GP's / consultant's prescription. Staff are not permitted to dispense any other medication (including pain killers).

- Parents are encouraged to request GPs to prescribe medicines which do not require doses during the school day where possible to minimise the need for pupils to receive medication during the day.
- Where necessary staff will receive specialist training to support pupils with medical conditions for example epilepsy, asthma, allergies etc. This training is recorded and the records are held in the medical boxes and medical room.
- Care plans will be drafted in conjunction with parents and appropriate health professionals and shared with staff as appropriate. These will be regularly reviewed to ensure they remain valid.
- All medications and drugs are stored safely in the medical room and accessed when required unless it is appropriate for pupils to carry their own medication (inhalers). Cold storage will be provided as required.
- A written log of all medication administered to pupils in school is kept confidentially in the medical room using the 'Evolve' online medical tracker.
- Emergency contact information for each child is held on Arbor and records updated as required.
- The school, may in the event of a critical situation, administer medication to a child without consent of a parent if the First Aider or medical services believe there is imminent life risk.

Intimate care

- It is our intent to develop the independence of each child at the school, however we appreciate that some additional care may be required. The school will manage a dedicated Intimate Care Policy, that will be reviewed annually and agreed by the Governing Body.
- Parents have a responsibility to advise the school of any known intimate care needs relating to their child.
- Where the school has been notified of a child requiring intimate care, the school will ensure that an Intimate Care Plan is put in place and agreed by parents / guardians. The plan will detail the extent of the school's responsibilities and activities to be undertaken. Once agreed the plan will be subject to a 6 monthly review. It is the responsibility of parents to inform the school of any change that may impact of the validity of the plan.
- **Only in an emergency would staff undertake any aspect of intimate care that has not been agreed by the parents. This act of intimate care would be reported to the dedicated safeguarding lead and parents at the earliest possible time following the event.**

Health and Safety Advice

The school is part of the REAch2 Academy Trust, and has access to advice and guidance via fellow schools, Deputy Director of Education and where required the Head of Health, Safety & Wellbeing, who will be as a minimum a Chartered Health & Safety Practitioner. The Trust will maintain a dedicated support service for schools on matters related to health and safety management; contact will be via the HS@reach2.org email address. In the first instance all general enquiries will be directed to the School Business Manager.

Risk Assessments

The Academy has a clear policy on risk assessment and has set our clear responsibilities and expectations for the management of risk. Risk assessments will be undertaken on all activities and processes that may cause harm, including issues related to premises and curriculum safety.

The Senior Leadership Team are responsible for identifying risks to pupils, premises and employees and are responsible for the development of written risk assessments with the staff concerned for significant risks or where legislation dictates.

Relevant risk assessments will be discussed with staff during induction and staff are expected to follow those control measures identified to keep themselves, pupils and premises safe.

Risk assessments will be undertaken using the Trust's online risk management system (Parago). The school will ensure that there are sufficient number of trained staff at the school to both undertake and cascade instructions to relevant staff.

Risk assessments will be subject to review on a risk level basis. Typically risk assessments will be reviewed between 12 months and 36 months depending on their risk. In addition, risk assessments will be reviewed on an incident, change in work process, new staff, new guidance or changes in legislation or where we believe the risk assessment to be no longer valid.

Individual risk assessments will be developed by line managers with staff who may become more vulnerable through age, pregnancy, disability or ill health.

School Journeys & Off-Site Activities

Teachers planning educational visits must obtain permission for the intended venue from the Educational Visit Coordinator (EVC) and ensure they carry out all documented planning of the visit including:

- pre-approval
- risk assessment of travel and activities at the venue
- obtaining permission from parents
- costing
- staffing ratios
- qualifications of those supporting activities
- using approved transport, etc.

All journeys must be approved by the EVC and in the case of overseas international journeys must be agreed by the Headteacher.

The school will manage all journeys via EVOLVE. The school will ensure that relevant staff are trained in the use of EVOLVE.

School Transport – e.g. minibuses

See Lower Farm Transportation Policy.

Monitoring & Audit Arrangements

The school will monitor the effectiveness of these arrangements and the policy by:

- The Senior Management Team reviewing this policy every year involving the staff team and Link Governor and amending as necessary. The policy should be approved by the Local Governing Body.
- By completing an annual site inspection, comprising of senior team members and governor representative. Support will be provided by REAch2, using template guidance documents.
- By conducting a REAch2 self-led safety audit at least annually to benchmark the school against statutory and REAch2 policy standards.
- By reporting our performance to Governors on the Key Performance Indicators identified within this policy.
- By structured monitoring of our activities by the H&S Link Governor who will then be able to report back to the REAch2 Board.
- REAch2 Head of Health, Safety & Wellbeing will run a phased audit program to provide a strategic level audit of the school.
- The Deputy Director of Education will support the school in monitoring the effectiveness of these arrangements and provide professional guidance on identified non – compliance.
