## Beech Class

This week Beech class have been learning about The Three Little Pigs. The children were given a problem solving challenge to build a house using only blue tac and spaghetti. They worked together to find out how best to stop the spaghetti from snapping and how to get the spaghetti to stand up. Great collaboration Reception! Another fantastic week of learning.

## Cherry Class

Cherry class have relished the opportunity this week to experience a real fire using the houses they built for their topic The Great Fire Of London. We learnt about fire safety, flammable materials, how fires can start and what to do if there is a fire. It was sad to see our houses burning but it was also very exciting. A great week of learning cherry class.

## Elder Class

Elder class have had so much fun this week learning about types of buildings and shelters in design technology. They have been exploring different homes in different parts of the world. They designed and created their own buildings using a range of resources and then for their final project they worked in teams to create their own shelter.
